

Effortless Integration With ConnectWise

CyBlock Cloud for MSPs provides ConnectWise integration for MSP Partners to easily manage licenses, analyze data, and protect customers from Web-borne threats. Increase your new and recurring revenue streams and deliver high-value customer satisfaction, all in a deployment requiring no hardware or software to buy and install, and no maintenance.

Integration Features and Benefits

- Quick and easy setup for ConnectWise and CyBlock integration use.
- One click between ConnectWise and the CyBlock Cloud MSP Partner Portal.
- CyBlock Cloud will automatically populate new information into the ConnectWise interface.
- Track and manage CyBlock Cloud licenses, renewals, and more within your ConnectWise environment.
- No need for additional software installation.
- Easily take advantage of ConnectWise service tickets and billing benefits with the CyBlock information at your fingertips.
- Time-saving, efficient integration allowing for increased new and recurring revenue, customer satisfaction, and time to focus on mission-critical issues.
- Ease-of-use features of the CyBlock integration with ConnectWise provide MSPs advanced, proactive capabilities, such as automatic distribution of customer reports.

Web-Use Security and Analytics Solution

CyBlock Cloud for MSPs is a comprehensive Web-use security and analytics solution specifically designed for MSP Partners and their clients. CyBlock provides easy-to-manage features such as advanced Web filtering, proactive bandwidth management, and comprehensive reporting, as well as protection against prolific Web-based threats, unsanctioned cloud service usage, data or productivity loss, and more.

CyBlock Cloud for MSPs includes:

- MSP Partner Portal
 - Easy setup, plus add, view, and manage customers.
- Time-Saving, Automatic Features
 - Automatically distribute reports per chosen schedule and recipients.
 - No client installation required.
 - Automatic bandwidth throttling at chosen thresholds.
 - Sends e-mail alert when bandwidth threshold is exceeded.
- Meets Compliance and Regulations
 - HIPAA, CIPA, and others.
- Advanced Threat Protection
 - Combats threats triggered by hyperlinks.
 - Stop malware, ransomware, and phishing attacks.
- Comprehensive Web Filtering
 - Content filtering.
 - Coverage over any distributed workforce.
 - Detect and analyze cloud services.
 - Block access to malicious Web sites.
- Forensic-Level Detail Reporting and Analytics
 - Manager-ready reports.
 - Variety of high-level summaries and detailed audits.
 - Trend comparison charts.
 - Time online charts.
- Optimized SSL Inspection
 - Decrypt and inspect SSL Web traffic.

Security and Reliability

Our cloud data center is state-of-the-art SSAE 16 (SOC 1) TYPE II certified infrastructure and is monitored 24/7/365 by a network operations center. The cloud computing infrastructure is housed in a secure, fireproof, climate-controlled facility with multiple direct connections to the Internet backbone. Rest assured that your data will be safeguarded.

Technical Support. No-charge, U.S.-based technical support is provided for the lifetime of your license.

Contact. For more information, please call 321-953-5351, Ext. 3 or e-mail sales@wavecrest.net.

Since 1996, Wavecrest Computing has provided business and government clients with reliable, accurate employee Web-access security, employee Web-use monitoring and analytics, and Cloud Access Security Broker (CASB) solutions. IT specialists, HR professionals, and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage with today's distributed workforce in mind—reducing liability risks, improving productivity, managing cloud services, saving bandwidth, and controlling costs.

Wavecrest has over 3,000 clients worldwide, including Blue Cross Blue Shield, MillerCoors, National Grid, Rolex, Siemens, Superior Court of California, U.S. Dept. of Veterans Affairs, and a growing list of global enterprises and government agencies. For more information on our company, products, and partners, visit www.wavecrest.net.
